GREEN UP DAY

TEAM BUILDING

Doing Good is part of Being Great!

Team & Club Challenge

Many businesses and pro teams participate in team-building experiences to create stronger bonds and more cohesive teamwork. Green Up can be that and more for your team or club. Working together becomes very prideful and rewarding for everyone.

- Competitive? Challenge another sport or club in your school or a neighboring town for some friendly "trash" talk, clean up initiatives.
- Instead of just running warm-up laps take a run around school grounds and stretch by bending to pick up any litter found. Keep track of your collection amounts (bags per day or week) and share with Green Up for a special shout out.
- Interested in a big team project? Green Up will set you up with a project area, supply what you need and will share your amazing efforts through press, social media and the VPA.

Clean up efforts can be scheduled prior to Green Up Day and any time of the year. Email for information.

U32 Football Team helping with a flood recovery project in Waterbury - 2023.
